L. C. PAIS :—" May I ask whether an agreement regard- supply of electricity to South Kanara has been signed or is o be signed in the near future? "

HON. SRI N. RANGA REDDI :—" The agreement has ot yet been signed, Sir."

L. C. PAIS :—" My question has not been fully d."

HON. SRI N. RANGA REDDI :—" One point of dispute with regard to the use of the word ' tax ' or ' surcharge ' d that has not yet been settled. Therefore, the agreement is not yet been signed."

T. ANANTHA PAI :—" Sir, will the Government give an ice that as soon as the agreement is signed construction will a n up without further delay? "

HON. SRI N. RANGA REDDI :—" Sir, I may tell the on. Member that provision is being made for taking power

and putting the construction work into execution. The whole difficulty is that the Mysore Government have not yet signed the agreement."

SRI V. CHIDANANDAM :—" May I ask, Sir, whether power will be supplied to the eastern taluks of Cuddapah district? "

THE HON. SRI N. RANGA REDDI :—" Sir, the Tungabhadra Scheme is expected to supply power to all the Ceded districts."

SRI G. SIVASANKARA REDDI :—" Sir, is all the energy contracted for, for Rayalaseema being used up now? If not, why? "

THE HON. SRI N. RANGA REDDI :—" 4,000 K.Ws. have been contracted for but only 3,000 K.Ws. are being used up. The rest is not used up because some schemes which have been sanctioned have not yet been implemented."

SRI K. C. GOPALAN UNNI :—"മലബാറിലെ വടക്കൻ താലൂക്കുകളിലേക്ക് ഇതുകൊണ്ടു പ്രയോജനമുണ്ടോ എന്നു ഒന്നു പറയുമോ?"

THE HON. SRI N. RANGA REDDI :—" Notice, Sir."

Grant of interest-free loans to fishermen.

*84 Q.—SRI PRAGADA KOTAIAH : Will the Hon. the Minister for Co-operation be pleased to state whether the Government have received representations from the organizations of fishermen in Andhra requesting the Government to help the fishermen by granting interest-free loans towards share capital for the purpose of forming into co-operatives and the action taken thereon by the Government?

THE HON. SRI D. SANJIVAYYA :—" Yes. One representation was received from the Andhra Provincial Fishermen Congress. The Government, however, consider that as the share capital of a member of a co-operative society is his stake in the society and ensures his loyalty towards the institution, it should be paid by him from out of his savings."

SRI G. C. KONDAYYA :—" May I know, Sir, whether in view of the distressed condition of the fishermen all over the State, the Government would consider the desirability of making interest-free loans towards share capital? "

THE HON. SRI D. SANJIVAYYA :—" Sir, I have already answered it. If the question is with regard to any other aid or grant to be given apart from the share capital, the Government would certainly consider it."

SRI A. GOVINDASAMI NAYAGAR :—"தமிழ் நாட்டிலுள்ள மீன் பிடிப்பவர்களுக்கு இந்தச் சலுகை கொடுக்கப்படுமா என்று நான் கேட்கிறேன்?"

THE HON. SRI D. SANJIVAYYA :—" Notice, Sir."

Please see the L.A. question at p. 1 c.f. It is s
n advance copy of it has already been circulated to M
or information.

2. It may be mentioned that during the last sessio
he Legislative Assembly, the same Member (Sri K.Krishn
.L.A.) gave notice of a question on the same subject
ith reference to this, after obtaining necessary parti
rom the C.E.(E), an answer as approved by M (P.W.) was
o the Legislature (Assembly) Secretariat. Since the
uestion lapsed consequent on the prorogation of the la
ession of the Assembly, the answer was returned to the
eptt. by the Legislature (Assembly) Secretariat.

3. According to the general plans formulated by the
lectricity Department for the development and distribut
f power in this State, the Ceded Districts are to recei
heir permanent hydro-electric supply from the Tungabhad
ydro-electric scheme. since sanctioned by the Govt. Wi

view to meet the immediate post-war demands in the area and to build up in advance a sizeable and remunerative load which could be switched on to the Tungabhadra Hydro Station when it is ready, a thermal generating station at Hagari in the Bellary district was first proposed, but subsequently it was found that Mysore Govt. were willing to spare 4,000 K.W. of power from their Jog Hydro-Electric Station and that it would be more economical to avail this supply than generate power from a thermal plant as proposed at Hagari. The Hagari thermal station scheme was, therefore dropped and a scheme estimated to cost Rs 50 lakhs was sanctioned in 1946 for the purchase of power in bulk from the Mysore Govt. at a point near Ujjini on the Mysore border and to construct transmission lines therefrom to Tungabhadra Dam, Bellary, Guntakal and Adoni. A revised estimate amounting to Rs 75.78 lakhs was sanctioned in 1950. A 33 K.V. extension to Rayadrug has been sanctioned separately. Supply of electric power under this scheme commenced on 7-6-1949 and has since been extended to the several places contemplated under the scheme. This supply from Mysore will be stopped on completion of the Tungabhadra hydro-electric scheme and a single circuit 66 K.V. line taking off to Kudligi will be interconnected to the Mysore Jog power system at Sokke on the Mysore border for purpose of interchange of power during emergency, if required by the Electricity Department and agreed to by the Mysore Electricity Department. It may be mentioned that it has since been found that in order to meet the growing demand in the Ceded Districts area during the period till power from the Tungabhadra hydro station becomes available, additional power will be required. Mysore have therefore been asked to state whether they can spare an additional bulk supply of 2500 K.W. over and above the 4000 K.W. already agreed to, under the same terms and conditions and their reply is awaited.

4. In regard to supply of electricity to the South Kanara district, it may be mentioned that the following

ıree alternatives were considered:-

(i) Extension of Pykara power to the area;

(ii) Development of power from the hydro-ele sources in the district; and

(iii) Purchase of Mysore Jog power for distri in the area.

t was found that item (iii) was most suitable egotiations were carried on with Mysore for t urchase of the required power. In November 1 ysore Govt. informed this Govt. that they wer o supply electric power to the extent of 6000 ne border of the State from their Jog Falls G tation. Based on this assurance, this Govt. n estimate amounting to Rs 48.32 lakhs initia ising to Rs 62.05 lakhs in the 10th year for istribution of the power in South Kanara dist revised estimate amounting to Rs 70.00 lakhs ising to Rs 88.0 lakhs in 10 years has been s y sanctioned for the scheme. Work on the sch een started but has been slowed down. The C.E as been asked to renew on 1-11-1952 the propo starting the work. Though the terms and cond upply of power by Mysore for distribution in S anara were settled long ago, a formal agreemer ot be concluded, the main point of difference ording of clauses relating to the levy of surc ysore. With reference to a latest draft agree nofficially handed over to M (H) during his re sit to Mangalore in ~~XX~~ September 1952, the My ovt. have been asked to state whether this dra as their approval and also to send a copy of t ysore Electricity (Taxation on Consumption) Ac heir reply is awaited. Meanwhile the remarks E.(E) on the latest draft agreement referred ve been obtained and they are being examined

consultation with the Departments concerned. It shou not be difficult to conclude the agreement early and it should be quite possible to supply South Kanara by the middle of 1954 assuming that no drastic cut is ma in the provisions available for Electricity extension schemes.

5. Apart from the supply of power from their Jo Falls Scheme for the Ceded Districts area (4000 K.W.) and South Kanara area (6000 K.W.), the Mysore Govt. are now supplying 1500 K.W.s of power for distributio in the Kollegal (800 K.W.s) and Hindupur (700 K.W.s) areas. In connection wi the generation of power at Mekadatu, the Mysore Govt. have agreed to supply 5000 K.W.s of power at Mekadatu 4000 K.W.s of power at Hosur and another 4000 K.W.s o power at Hosur after the discontinuance of the supply for the Ceded districts. But an agreement in this regard is pending conclusion as in the case of supply to South Kanara area.

6. It may be mentioned that the following clause included in the previous question given notice of & during the last session of the Assembly, have been left out in the present question at p. 1 c.f.:-

(i) Whether the Govt. pay for the energy actually taken and distributed or do they pay for the energy contracted for, irrespective of the amount of energy utilised?

(ii) When do the Government expect to utilise the full energy contracted for?

It is likely that the M.L.A. may put these as supplementaries. The answers to them are as follows

Item (i) above. Payment is for the energy actual distributed.

Item (ii) above. The full limit of energy contra for under the Ceded districts supply agreement, viz. 4,000 K.W. is likely to be utilized within the next

1½ to 2 years if the extension schemes for that a sanctioned and under execution are completed as scheduled. Under the South Kanara supply agreem yet to be executed the power proposed to be cont for is likely to be used fully in the course of or six years from the date of supply.

7. Based on the answer already sent and refe to in para 2 on p. 1 ante, a draft answer to the question at p. 1 c.f. is submitted. The file ma circulated to M (P.W.) for approval of the draft [A copy of paras 3 to 6 of the note at pp. 1-5 a may be sent to M (P.W.) along with the f.c. of t answer to the question]
